BRILLIANT EverGlow®

NEW

UNIVERSAL SUBMICRON HYBRID COMPOSITE

The desire to have an easy-to-process, aesthetic and long-lasting filling material is considerable. However, only state-of-the-art composites are able to offer the right mix of simple, practical handling, excellent blending properties and long-lasting brilliance. The new BRILLIANT EverGlow is one of these all-round materials which fully meets this list of requirements. Ideal for anterior and posterior teeth, and offers considerably more.

- → Exceptional polishability and long-lasting brilliance
- → Aesthetic single-colour restorations
- → Ideal handling through smooth consistency
- → Good wettability on tooth substance
